Popular TV instructor Brenda Harris' acrylic painting method produces realistic, startling results in a few hours, even for the most inexperienced painters. As in her

previous volumes, Brenda proves her gift for teaching is just as effective on the page as it is on TV. "Lovely Landscapes" offers readers: 10 easy-to-follow step-by-steps that result in beautiful acrylic paintings; instruction with immediate take-away - no knowledge of art required; project patterns to reduce the fear of making mistakes; and a disarming tone that encourages artists to trust themselves. This is the print counter part to the "Painting with Brenda Harris" PBS program that viewers love!
