Babies will love it The book consists of six brightly illustrated board panels (12 pages, including covers), and the panels are held together by a plastic ring that also holds a doughnut-shaped baby's rattle. Baby's first book of colors shows bright red cherries, a blue sneaker, a yellow lemon, a green frog, and many more vivid colors. Here is a great gift item for parents of newborns. Both book and rattle is sturdy and safe for baby to play with.
