Frank's best friend Angelina is smart and brave-and she can howl at the moon even louder than Frank can. But one day Angelina tells Frank that her family is moving far away. With his best friend gone, Frank finds that tickling tarantulas and counting cloud bunnies just aren't the same. Then Larry and his family move in next door. Larry is different from Angelina, but Frank soon finds that he's special in his own way. This touching friendship story is the perfect antidote to the "my best friend moved away" blues.

"The playful protagonist of Way Out West Lives a Coyote Named Frank returns. [Two Cool Coyotes has] plenty of giggle-inducing visual jokes." ( Booklist )
