Wild and wonderful, these stories will appeal to all readers of fine children's literature, and Blake's illustrations, full of spirit and exuberance, are the perfect accompaniment of Mahy's vigorous tales.

The Great Piratical Rumbustification introduces us to Alpha, Oliver, and Omega Terrapin, alone for an evening of devilish fun and none other than Orpheus Clinker, a reformed pirate cleverly transformed into a respectable babysitter. Or has he reformed? Before you can say "Yo Ho Ho" the Terrapin household has become headquarters of the century's biggest pirate party.

The Librarian and the Robbers is an equally tickling tale of a band of wicked robbers who one day carry off Serena Leburnum, a beautiful librarian. Follow what happens as the lovely and learned Miss L. not only outwits the robbers, turning them into outstanding citizens, but also teaches them the everlasting pleasures of the Dewey Decimal System.
