Moses and his school friends are deaf, but like most children, they have a lot to say. They communicate in American Sign Language, using visual signs and facial expressions. This is called signing. And even though they can't hear, they can enjoy many activities through their other senses. Today, Moses and his classmates are going to a concert. Their teacher, Mr. Samuels, has two surprises in store for them, to make this particular concert a special event. Isaac Millman tells Moses's story in pictures and written English, and in American Sign Language (ASL), introducing hearing children to the signs for some of the key words and ideas. At the end of the book are two full conversations in sign language and a page showing the hand alphabet. You can learn sign language, too.
