Comrade General goes to war

A new film by Grzegorz Braun. This time, reveals the truth about General Jaruzelski and the making of the imposition of martial law in Poland.

After '89 ensured in Poland to build the myth of the necessity of martial law , which allegedly protected the Poles against Soviet military intervention . The widespread opinion is that Jaruzelski declared war his people , chose the lesser evil. However, the documents - especially revealed transcripts of the meetings of the Politburo of the CPSU - indicate that the Soviets did not plan intervention in Poland , military exercises were a bluff and a demonstration of force , and the Soviet comrades committed " loss of Polish " . How does this apply to today's conviction of many of the real threat of intervention and " difficult but necessary " Jaruzelski's decision to impose martial law and deal with it quite a hero?

The film has to answer the question whether the myth of intervention has reason to be maintained , or whether it is normal procedure propagandist who are not confirmed by facts and historical forgery , whose foundation is based on today's hypocritical image communist dictator who has declared war on the people and risked the massacre of the population, bloodshed and civil war , just to save their power and criminal system ?

When I started preparing for martial law ? The answer is shocking, August 17, 1980 of the year! By the end of the strike , and in fact after the end of the economic strike , which was transformed into a social strike , started to work towards the elimination nascent independence. This is evidenced by preserved documents of the Committee of National Defense . Film - searching for an answer to the fundamental question of the reality of the Soviet threat intervention - is supposed to represent the process of preparation, implementation and execution of martial law , which tell the story of Polish from the 80 to 13 December 1981 .

To participate in the film were invited historians dealing with this period , including :

prof. Andrzej Paczkowski , including author of the book War of the Polish - jaruzelska ;

Dr. Lech Kowalski , including author of General flawed , a specialist in the National Defence Committee ;

其实是dvd，但目前尚无imdb号码。关于雅鲁泽尔斯基颁布戒严令的纪录片,看的视频比DVD要少10多分钟
