Aaron loves animals more than anything else in the world. But when he is diagnosed with allergies, the doctor tells him that his pets -- a dog, a cat, six kittens and six guinea pigs -- have got to go. After Aaron reluctantly finds each pet a new home, he discovers other ways to make animals a part of his life. The Asthma and Allergy Foundation of America reports that an estimated one in every five adults and children suffers from allergies. "Aaron's Awful Allergies" will have special appeal for those millions of children living with allergies.
