The Wonders of our World Series offers young readers a lively and visually exciting introduction to the world around us and the forces at work shaping our planet and its future. Ten books in this series offer fascinating full-color photographs of examples

from around the world to help illustrate:

- the devastating impact volcanoes, extreme weather, and earthquakes can have
- why the earth's forests and waterways are in danger of destruction
- how the earth's powerful internal forces produce rocks and minerals from the ordinary to the dazzling
- how mountains, deserts, and caves are formed Often the favorite hideout for smugglers and pirates, Caves features examples of these secret places from around the world. Take an intriguing look at:
- different kinds of caves
- how they are created
- various rock formations found inside
- animal and plant life
- how human beings have used caves for shelter and safety
