Patty's pumpkin patch is a surprisingly busy place all year long. There's plowing and planting in the spring, weeding (and lots of growing!) in the summer, and much more than just picking pumpkins in the fall. For within the patch, creepy-crawly, furry, and feathered friends from A to Z are always on the move, keeping Patty company and watching her work.

The perfect lead-in or follow-up to a visit to a pumpkin patch, Teri Sloat's bouncy verse and vibrant, detailed artwork make this an outing kids can enjoy any time of the year
