isbn:9780778703211

Children won't be able to put down Nature Unfolds, an exciting new series that uses spectacular fold-out illustrations to involve children in exploring habitats. Each book divides a particular habitat into its natural layers. The first spread features an overview

of the entire habitat, which then opens up to reveal a glorious 11 3/4 x 34 3/4" fold-out illustration. Turning the pages reveals a closer in depth look at the animals and plant life one layer at a time. Each book contains fascinating information, two lavish fold-out illustrations, and a key listing wildlife and plant life. Children will be engrossed by searching for specific animals and plants in these amazingly detailed, full-color fold-outs. Children will be fascinated by the wealth of animal and plant life in Nature Unfolds The Poles, a richly illustrated new book that takes readers on a journey from the Antarctic and its islands to the polar desert and tundra of the Arctic. Amazing information and two spectacular fold-out illustrations help children identify the wildlife and plants that live: -- on the Antarctic continent-- around the pack ice-- on and around the Antarctic and oceanic islands-- in the Arctic polar desert-- in the tundra-- on and around the coastlands-- in the Arctic oceans and seas
