isbn:9781590592144

...a very good high level introduction to all of the concepts involved with .NET development of web applications. -- Jack Herrington, Code Generation Network The

key issue for all enterprise developers, regardless of platform, is how to design for growth. This is the first book that addresses how to build scalable .NET applications. Given Rossberg and Redler's extensive consulting experience, this book is based on their combined real world experience with numerous large .NET installations.
