评论

清楚，的确是给入门的学生看的，很多观点绕来绕去，重复说，所以能加深印象

Neuhouser's main contribution lies in his devising a normative sense of human nature out of Rousseau's assertion of the natural goodness of human beings. Through which he is able to turn Rousseau's conjectural history of society and inequality into an approach of genealogy that involves reevaluation of the values already "naturalised" among opinion

还可以吧。。。

Neuhouser喜欢写长句，反复说。另外要强烈diss一下康德-罗尔斯视角的卢梭解释。
