isbn:9781571203809

This title covers everything you need to know on how to make one of the most complicated patterns in the quilter's repertoire, the mariner's compass. "Mariner's Medallion Quilts" includes full-size patterns, and step-by-step instructions that make

the process as simple as possible - even for first-time quilters. Also included is a discussion on fabric and tools, as well as 25 stunning examples and four completely new design projects. The volume also features tons of tips and inspiration for themes, embellishment ideas, quilt designs, border options and finishing techniques. This will become an invaluable resource for any quilter wanting to use mariner's medallions in their designs.
