装帧:Paperback

isbn:9780060817121

Far Horizons is an anthology of 11 science fiction short stories or novellas by major authors, who also provide introductions and sometimes afterwords for the stories; it is edited by Robert Silverberg. All of the stories make their first appearance in Far Horizons, but none are truly "original" in a sense, as they are all set in one of the author's most popular fictional universes. It is the science fiction equivalent of Silverberg's Legends series.

Contents

Introduction, by Robert Silverberg

"Old Music and the Slave Women", Ursula K. Le Guin (Ekumen)

"A Separate War", by Joe Haldeman (The Forever War)
