You don't need bartending paraphernalia: with this book you can create sensational alcoholic and non-alcoholic cocktails simply using your kitchen blender. With over 400 truly delicious and decadent recipes, there are cocktails for every occasion. And with a little imagination and experimentation, you can invent the perfect blender drink. Cocktails are back in vogue whether for hosting a party or simply relaxing after a hard day. This book provides valuable tips and techniques for turning any novice into a seasoned bartender. It includes 40 "mocktails" - alcohol-free concoctions for special occasions or special guests.
