4+ Hours of Video Instruction Data Access in the ASP.NET 2.0 Framework will show you everything you need to know to start building database-driven web applications using the Microsoft ASP.NET 2.0 framework and the Microsoft Visual Studio 2005 development environment. Your instructor Stephen Walther--honored by Microsoft as both an ASP.NET MVP and "Software Legend"--guides you through building two fully functional, database-driven applications. Learn at your own pace with video lessons covering every main ASP.NET data access control: GridView, DetailsView, FormView, Repeater, DataList, and SqlDataSource. One step at a time, you'll learn how to build robust data access components, provide graceful error handling, handle user concurrency issues, and much more. Looking for a better way to master today's rapidly changing programming technologies? Want expert help, but don't have the time or energy to read a book? Can't find classroom training worth the money? Discover LiveLessons: self-paced, personal video instruction from the world's leading experts. \*LiveLessons are video courses, on DVD with a book supplement, that are organized into bite-sized, self-contained sessions--you'll learn key skills in as little as fifteen minutes! \* Track your progress as you follow clearly defined learning objectives. \* Follow along as your instructor shows exactly how to get great results in your real-world environment. Professional author and instructor Stephen Walther provides an introduction to the core concepts of Data Access in the ASP.NET 2.0 Framework.
