# Neural Networks and Computing

Neural Networks and Computing_下载链接1_

著者:Cho, Siu-Yeung

出版者:World Scientific Pub Co Inc

出版时间:

装帧:HRD

isbn:9781860947582

This book covers neural networks with special emphasis on advanced learning methodologies and applications. It includes practical issues of weight initializations, stalling of learning, and escape from a local minima, which have not been covered by many existing books in this area. Additionally, the book highlights the important feature selection problem, which baffles many neural networks practitioners because of the difficulties handling large datasets. It also contains several interesting IT, engineering and bioinformatics applications.
