Among the large caches of private documents discovered and collected in China, few rival the Huizhou sources for the insight they provide into Chinese local society and economy over the past millennium. Having spent decades researching these exceptionally rich sources, Joseph P. McDermott presents in two volumes his findings about the major social and economic changes in this important prefecture of south China from around 900 to 1700. In this first volume, we learn about village settlement, competition among village religious institutions, premodern agricultural production, the management of land and lineage, the rise of the lineage as the dominant institution, and its members' application of commercial practices to local forestry operations. This landmark study of religious life and economic activity, of lineage and land, and of rural residents and urban commercial practices provides a compelling new framework for understanding a distinctive path of economic and social development for premodern China and beyond.

评论

周绍明教授终于出书就退休了。

据说作者憋了二十年 成果果然厚重 不知道有没有出版社盯上这本
感觉非常值得引进中国学界

a material-driven research

关于LINEAGE在徽州与VILLAGE WORSHIP
ASSOCIATION的长时间的互补互助的斗争，和后来木材作为主要商品如何显示宗族逐
渐分化和矛盾激化，虽然是厚了一点，但是还是读完了，很期待下一部关于LATE
MING开始ANCESTRAL HALL所承担的对于徽商发展的经济情感作用

扎实厚重不难读，又似乎有些封闭。选题方式很传统。
