Sonny Lofthus is a strangely charismatic and complacent young man. Sonny's been in prison for a dozen years, nearly half his life. The inmates who seek out his uncanny abilities to soothe leave his cell feeling absolved. They don't know or care that Sonny has a serious heroin habit—or where or how he gets his uninterrupted supply of the drug. Or that he's serving time for other peoples' crimes.

Sonny took the first steps toward addiction when his father took his own life rather than face exposure as a corrupt cop. Now Sonny is the seemingly malleable center of a whole infrastructure of corruption: prison staff, police, lawyers, a desperate priest—all of them focused on keeping him high and in jail. And all of them under the thumb of the Twin, Oslo's crime overlord. As long as Sonny gets his dope, he's happy to play the criminal and the prison's in-house savior.

But when he learns a stunning, long-hidden secret concerning his father, he makes a brilliantly executed escape from prison—and from the person he'd let himself become—and begins hunting down those responsible for the crimes against him . . . The darkly looming question is: Who will get to him first—the criminals or the cops?

非哈利系列

Sometimes it is so hard to express how good a book is. "The god is in structure, also in details." Jo Nesbe is the rare writer who is capable of handling both. 5 Stars. Highly recommend to the fans who are a little bit tired of Harry Hole series.

stand-alone也好看。Jo Nesbo真的是神仙作家，该硬汉的时候硬汉，该温油的时候温油，还有偶尔的爱人之间亲昵时刻的玩笑看得我这个大老爷们儿都怪不好意思的哈哈哈哈哈。
