The In Business system is the only series that prepares you expressly for your core business classes such as Accounting, Economics, Marketing, Finance and Business Statistics by doing the following: exposing you to real business files that meet

professional standards; providing a useful reference to be used in your business classes; instructing how to use the software as a tool to accomplish business goals; coverage of the core Office skills that you will need in your business courses. In Business includes tools that will benefit any style of learning. Whether you need to reference specific skills for another course or understand how to utilize Microsoft Office to complete your business objectives, In Business will allow you to apply these skills directly to your own education and career aspirations." Microsoft Office Excel 2007 In Business, Core, 1/e" covers the following topics: introduction to Excel; calculating data through formulas and functions; evaluating data; presenting information with charts; applying core competency skills for financial planning and accounting. Ideal for business students and professionals.
