* One of the first comprehensive books to cover Photoshop cs (image-editing), Illustrator cs (drawing), InDesign cs (layout and graphic design), GoLive cs (Web design), Acrobat Professional (document distribution), and Version Cue (the new file management application) all in one volume * Tackles issues that arise every day for a

designer, showing how to manage workflow among these integrated applications * Topics covered include developing consistent color-managed workflows, moving files among the cs applications, preparing files for print or the Web, repurposing documents, and much more * Ted Padova is an internationally known author, speaker, university instructor, and service-bureau owner who has become an expert with Adobe software during the past sixteen years
