In the grasslands of Africa, a group of young animals think they know all about the crocodile who swims in the river beneath their school. He is the most ferocious creature on earth ... or is he? When the animals try painting portraits of him, they learn

there is no one way to see anything, even a crocodile. In this heartwarming tale, author and illustrator Eva Montanari makes abstract concepts easy to understand, bringing them vividly to life. With age-appropriate text and gorgeous illustrations, The Crocodile's True Colors uses adorable animals and a captivating, yet simple plot to draw children into learning about perception and art. A true delight for story lovers of all ages!

非常有意思的故事。動物們在課堂上畫牠們只見過尾巴的鱷魚，每個表現的手法都不一樣，猴子總是笑其他動物的畫作。不過大象老師都會觀察之後告訴大家牠們展現的不同派風格，包括表現派、抽象派、立體派、未來派、達達主義等。在有趣的故事裡教一點關於美術的東西，小孩和我都喜歡！
