"For the curious child who simply must know HOW? " From the authors of the ingenious" The Book of Why" comes a book full of great answers to tough questions: How do rainbows form? How can I tell my parents I get scared when they yell at me? How can we help the poor? How do broken bones heal? How can I convince my mother that video games wont make me stupid? These and 80 other questions are thoughtfully answered in this well-researched book.
