著者:Casper, Julie Kerr

出版者:Facts on File

出版时间:2007-4

装帧:HRD

isbn:9780816063543

This informative volume comes at an important time, as countries look seriously toward alternative forms of energy and the problems that will result if they do not. This book focuses on Earth energy resources, such as renewable power from water, ocean energy, solar energy, wind energy, and biofuels, as well as non-renewable sources.
