When Leo comes over to play with Ben, disaster strikes Leo's favorite new digger gets broken. Will their friendship survive this setback? And, more importantly, can they fix the digger? Green Bananas are easy stories for readers ages four to six, a new level just below Blue Bananas. Each book contains full-color illustrations and three simple stories that are linked together. The use of simple vocabulary and speech bubbles make these the perfect introduction to the Bananas series. As their readings skills grow, children can move from one level to the next and read other exciting stories in the Blue, Red, and Yellow levels.
