Best friends Toucan, Giraffe and Penguin all feel different in some way. Giraffe feels he is too tall, Penguin can't fly, and Toucan is embarrassed by his big yellow beak. But they soon discover that they can use their differences to help their friends. Green Bananas are easy stories for readers ages four to six, a new level just below Blue Bananas. Each book contains full-color illustrations and three simple stories that are linked together. The use of simple vocabulary and speech bubbles make these the perfect introduction to the Bananas series. As their readings skills grow, children can move from one level to the next and read other exciting stories in the Blue, Red, and Yellow levels.
