Why would anyone want to kill off World War II veterans in a nursing home? Who had the nerve to poison the venomous head nurse, Miss Waspworthy? Rhiannon goes undercover at Eldermanse, a nursing home at the edge of town in New Belgium, to find a particularly nasty and vengeful murderer. Meanwhile Rhi's best friend, Didi Spencer, tries her hand at writing a romance novel and at matchmaking. Will she write a blockbuster, and even more difficult, find a date for Rhi? Will Rhi admit that she has a love jones for Stan "the bear" Keefer? All the quirky characters of New Belgium reunite for another baffling puzzle. Will Rhi discover who stung Miss Waspworthy? Once again, it's up to Rhi to find the balance of justice and restore equilibrium in La Follette County.
