著者:Levine, Shar/ Johnstone, Leslie/ Humphrey, Elaine (ILT)

出版者:Advantage Pub Group

出版时间:2005-8

装帧:HRD

isbn:9781592233656

Yuck! Nothing's creepier than a big, hairy spider — unless it's a big hairy spider in extreme 3-D! High-powered scanning electron microscopes (SEMs) and 3-D images allow young readers to get close — really, really close — to ants, bees, dragonflies,

millipedes, and other creepy-crawlies in this extraordinary and educational book. Each spread features awesome 3-D photographs that children can check out with the ultra-cool glasses included with the book, as well as plenty of fun, fascinating facts like where ants go to the bathroom.
