Lock the doors! Pack your bags! Run for your life! Sneaky Cousin John only acts like a bully when adults aren't around, so Mom doesn't know it's a battle of wills every visit. Ben and his kitty are on the verge of fleeing . . . when inspiration strikes. Suddenly,

he and his loyal kitty have reason to think that this visit will be fun, even if it’s not the way Mom imagines. Enriched by the sly details in the comic-book-style illustrations, this mischievous story recognizes that sometimes a kid has to fend for himself. It’s an amusing twist on the tale of David vs. Goliath—sure to empower the little guy!
