Written by recognized experts in the field, *Assessment Planning for CLD Students* details effective classroom assessment practices for and usefully organizes recommended strategies around the four critical dimensions of the CLD student biography. This classroom-ready resource intentionally focuses on those classroom assessment practices that will prove effective with CLD students and useful to preK-12 teachers of those students. Unlike its competitors, the book begins and ends with practical assessment strategies for each of the four critical dimensions of the CLD student biography: the sociocultural, linguistic, academic, and cognitive dimensions.
