This amazing system consists of the award-winning book, Mastering Essential Math Skills Book 2, Middle-Grades/High School, and the America's Math Teacher DVD

tutorial with over 7 hours of lessons. Throughout the DVD, award-winning author, America's Math Teacher, Richard W. Fisher, carefully guides students through each and every lesson prior to them going to the book. Why pay hundreds of dollars at a tutoring center when you can have your own personal math tutor who is available anytime, 24/7, at a fraction of the cost? Students will master topics necessary for algebra-readiness. Agebra is the gateway to more advanced math, science, and technology classes in additon to a college education and access to the best careers in the 21st century. You must be sure that your child is prepared for the future
