著者:Rausch, Monica L.

出版者:Gareth Stevens Pub

出版时间:2007-1

装帧:Pap

isbn:9780836877328

Supporting both the social studies and science curricula, this series introduces young readers to important inventors and their inventions. Students will learn about the lives of the inventors and the development of the featured invention, including its impact on the way we live today. Each book features: - Text leveled according to Fountas and

Pinnell guided reading levels- A correlation to the social studies standard regarding relationships between science, Technology, and society- A strong science component, promoting science as inquiry- Easy-to-read text reviewed by a reading consultant and a science curriculum consultant- Historical photographs that enhance the text- Diagrams and labeled illustrations to aid comprehension
