What constitutes a "real" man or woman in the twenty-first century? Since birth control

pills, erectile dysfunction remedies, and factory-made testosterone and estrogen were developed, biology is definitely no longer destiny.

In this penetrating analysis of gender, Paul B. Preciado shows the ways in which the synthesis of hormones since the 1950s has fundamentally changed how gender and sexual identity are formulated, and how the pharmaceutical and pornography industries are in the business of creating desire. This riveting continuation of Michel Foucault's The History of Sexuality also includes Preciado's diaristic account of his own use of testosterone every day for one year, and its mesmerizing impact on his body as well as his imagination.

作者介绍:

目录: INTRODUCTION

评论

有点震撼，有点感动。以及，追问到尽头，有没有可能有resistance，边界在哪儿，我不知道。日常的抵抗，大概还是能做的

今年读过最好的书。

什么都不说了，五颗星。

Sexuality and gender
history课的老师推荐的，读得马马虎虎，如果日后对这个话题感兴趣了会重读
