This work is intended for ages 1+. "The Alphabet Rocks" is a book for toddlers aimed at teaching them their ABC's in a fun, rock and rolling manner that will make the learning

process easy and enjoyable. The lively, colourful alphabet characters are displayed dancing, leaping, playing drums and guitars, and singing with microphones. The two refrains that reverberate throughout the book "Let's Rock!" and "That Rocks!" provide a beat of excitement that is very appealing to young children. This, in addition to the rhyming rhythm of "A is for Apple, B is for Bear, C is for cuddly cat sitting on the chair..." makes the alphabet fun and memorable for young readers.
