著者:Thomas, Peggy

出版者:Lucent Books

出版时间:2005-5

装帧:LIB

isbn:9781590184370

This wide-ranging series explores environmental phenomena such as global warming, astronomical wonders such as black holes, and life-altering inventions such as lasers. Vivid, informative narrative and fully documented quotes enhance each volume in the series. All books include annotated bibliographies and an index.
