出版者:Capstone Pr Inc

出版时间:1999-1

装帧:SAL

isbn:9780736802406

The fascinating world of insects comes alive in this colorful series. Young scientists can use these books to discover similarities and differences among these unique creatures. The books support sciences activities while giving students practice in reading nonfiction materials. This series explores and supports the standard "The Living Environment: Interdependence of Life," as required by the Benchmarks for Science Literacy: Project 2061.
