What is Right? is Etan Boritzer's 6th title in his best selling "What is?" life concepts series. This title addresses issues of integrity and fairness for children. If your neighbor's orange tree has a branch full of oranges hanging over his fence into your backyard, is it right to help yourself to a few oranges? What is Right? asks the child to consider many

issues and situations related to making wholesome choices in life. With witty and bright illustrations by Graham Sale.
