Feast your eyes on these amazing creatures before they disappear. This stampede of wild animals, from Chinese Alligator to Grevy's Zebra, are so rare, they're all endangered. David McLiman's bold and playful illustrations transform each letter into a work of art, graphically rendered with animal characteristics. Scales, horns, even insect wings transform the alphabet into animated life.

Once you take this eye-opening safari, you'll never look at letters or animals with the same way again. A striking work of art and a zoological adventure, Gone Wild is sure to be loved by children and adults alike.
