Simon James's story about the smartest baby in the world will have little ones howling with laughter and may have big ones smiling wryly with self-recognition.

It's never too early to start bringing up the smartest baby in the whole world. So thinks the expectant Mrs. Brains, who reads to the baby inside her tummy every night and

plays music and language tapes to her baby during the day. And soon enough, Mr. and Mrs. Brains have their very own Baby Brains! He reads the paper, fixes the family car, and works as a doctor in the local hospital. Now even the space program is calling on him. Is there anything Baby Brains can't do?
