Peggy the pig is back in a zany, easy-to-read misadventure just as funny as The Viper and The Aliens Are Coming! Spooky noises are keeping Peggy awake. Tap, tap, tap. Creak! She sees long, bony fingers at the window and hears a monster on the stairs. And now something is knocking at her door! Kids will love figuring out before Peggy does that it's her trick-or treating friends. Fans of silly, endearing Peggy will applaud this delightful addition to the series that began with the hit The Viper.
