This book, for a lower reading level, tells you all about World War II (1939-1945). This was the devastating conflict between the Allies and the Axis powers that engulfed the

world. Using vivid personal accounts, it describes the rise of the Nazis, the horrors of fighting that left millions dead, and how the Allies eventually won a costly victory. Find out: What was 'blitzkrieg?' What happened at Pearl Harbor? What happened on D-Day?
