The earliest years of childhood provide fertile soil for planting important truths, and the engaging new Seedling and Sprout series offers the perfect way to introduce toddlers and preschoolers to the concepts that will shape their values. Artfully designed with vibrant, full-color, contemporary illustrations, each book features either

the character of Seedling, who embodies the characteristic energy of children 3 and under, or the slightly older Sprout, whose questions and interests reflect the understanding of children ages 4 to 6.

Simple yet captivating rhymes and delightful illustrations bring to life sixteen favorite Bible stories about Creation, Noah, the boy-hero David, the birth of Jesus, the first Easter, and more. This unique Bible storybook includes simple interactive exercises to guide parents in helping the truths of God's Word take root in their child's heart.
