This charming tale of Michael, Emily, and their parents as they explore the Sonoran Desert is designed to both entertain and educate. Wildlife can be elusive, and both kids are disappointed when at first they don't encounter many animals in the park. The kids quickly learn, however, that there are animals all around, and these creatures leave behind scat and tracks. Colorful illustrations of animals and their leavings supplement this lively tale, and a quick-identification chart at the back makes field identification a breeze
