isbn:9781845075453

Charlotte lives in a big house with lots of toys. Most little girls would be happy with so

many toys, but not Charlotte! She wants to play with real friends and have real adventures. And on one dark and stormy day, Charlotte pops up literally in Tim and Ginger’ s maritime world. Her adventures and a veritable sea of delightful troubles are just beginning. The Little Tim books have been cherished by readers young and old for their spirited adventures told by a storyteller who speaks straight to children's imaginations, and for their indelible portrait of life in a sleepy English coastal community.
