If you want your students to think scientifically and have fun while they are doing it, Science Month by Month is the book for you. This collection of lessons, activities, calendars of historic science events, vocabulary word lists, and reproducible

worksheets will help you develop seasonal science-theme units for your classrooms. The more than 80 activities are designed for flexibility and can be used in any sequence, any time during the school year. The activities are interdisciplinary, cover all areas of the science curriculum, complement other science programs and textbooks, and are easy to implement without special equipment or materials.
