For one-semester, undergraduate-level courses in Music for Children, Music in the Elementary School, Music in Childhood, Elementary Classroom Music, Elementary Music Methods. The Musical Classroom provides everything needed to teach the course is under one cover-music fundamentals, strategies for teaching music in the elementary classroom, over 170 songs, the National Standards for Music Education, and instruction for the guitar, recorder, and piano. Story: The authors wrote this text to provide a text for future elementary classroom teachers who have little or no music background; have not taken a college music fundamentals class; and will most likely only take this one course in music and need to learn backgrounds about elementary music teaching while they develop skills and understanding themselves.
