For courses in College Orientation and Study Skills. Roadways to Success, 4th Edition, moves study skills to a new level -- first it uncovers the skills essential to better classroom performance, and then reveals how to use them to positively impact one's

own academic and career success. So students learn how to understand what the professor wants, identify time-management strengths, overcome obstacles to listening, use successful studying techniques, tackle test anxiety, and more. They also discover how health and wellness can improve the chance for academic success, as well as understand why research and planning helps make career decisions easier, and ultimately better. This revision includes new critical thinking exercises, an integrated case study, and a new chapter on diversity. It offers solid coverage of technology, strong applications and new ways for college students to reach their academic potential.
