- More than 140 fast, fun projects from BeadStyle
- String it, crimp it, wear it right away

- Make jewelry and accessories that express your inner beader Beaders know what they want: fast, easy, unique projects that can't be found in stores. No wonder so many crafters are turning to beading not just as a pastime, but also as a means of self-expression. That's the spirit behind BeadStyle magazine, launched in 2003. The magazine's great projects are always presented in an easy-to-follow, step-by-step format—and Easy Beading, Volume 2 showcases the best of BeadStyle's second year. Crystals, gemstones, glass, metal, and more are used in more than 140 exciting projects that require little more than stringing and crimping. It's a year of beading in one handy book!
