isbn:9780376011145

Everyone needs more closet space, but getting organized is hard, especially when your current closets are overflowing with decades-old debris. That's why this new title is so motivating. It walks you through the painful "purge" process that should precede any

smart closet makeover, then it guides you to the most appropriate configuration and materials, whether for clothing closets, crafts nooks, or the pantry. Finally, step-by-step photos and illustrations help you complete your very own smart closet.
