As noted comedian George Carlin says, "Your house is a place to keep your stuff while you go out and get more stuff." The age of clutter is upon us, and our houses have become the front lines. We all have more to organize at home than ever, and if we

don't set aside a little time and have a good plan, we'll likely get overwhelmed. "Degunking Your Home" is the book you won't be able to live without. It will save your sanity as well as time and money. It will quickly show you how to get your home organized from attic to basement to garage and every nook and cranny in between. You'll learn the most efficient ways to organize and clean your home and maintain it like a pro. The book includes tips throughout on what to keep and what should go, help for chronic clutterers, the best (and least expensive) cleaning materials to use for each area, proven methods for removing stubborn and stinky stains, storage solutions, techniques for improving your home's exterior appearance, spare moment degunking, and more. You'll even learn how to fully degunk your home before you put it up for sale so that you can maximize its value. The book includes helpful worksheets and QandAs that will answer the toughest degunking questions and save you hours of time.
